PROFESSIONAL SUMMARY

Motivated Junior Full-Stack Developer focused on building responsive, user-centred web applications with Next.js, React.js and TypeScript, backed by Node.js, PHP and ASP.NET/C# and by MySQL and MongoDB databases. Built a database-driven e-commerce application from storefront to admin tools and deployed it live on Vercel. Currently pursuing Intermediate Pre-Engineering while strengthening engineering fundamentals and communication, and seeking a junior role where I can contribute to real-world products and grow alongside an experienced team.
